# Clinical Medicine & Research

## Subject Index: Volume 3, 2005

February-November 2005

Volume 3, Number 1, February 2005, Pages 1-54
Volume 3, Number 2, May 2005, Pages 55-130
Volume 3, Number 3, August 2005, Pages 131-204
Volume 3, Number 4, November 2005, Pages 205-272

A

**Acute cholecystitis**
John Benjamin Murphy (1857-1916), 110

**Acute liver failure**
Development of the allocation system for decreased donor liver transplantation, 87

**Adeno-associated virus**
Tolerance induction by viral *in vivo* gene transfer, 234

**Adverse events**
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137
Warfarin initiation and the potential role of genomic-guided dosing, 205

**Ambulatory blood pressure monitoring**
The clinical utility of patient-measured blood pressure at home in the management of hypertension, 134

**Anabolic agents**
Lactoferrin – A novel bone growth factor, 93

**Angiography**
Ejection fraction derived by noninvasive modalities versus left ventricular angiographic determination, 61
Accuracy of noninvasive ejection fraction measurement in a large community-based clinic, 75

**Animal models**
New challenges to developing animal models for human immune-mediated marrow failure, 63
Animal models for acquired bone marrow failure syndromes, 102

**Animals**
Magnetic resonance imaging of neuronal function in the spinal cord: spinal IMRI, 146

**Anticoagulation**
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137
Warfarin initiation and the potential role of genomic-guided dosing, 205

**Antigens**
Efficacy of the influenza vaccine in patients with malignant lymphoma, 214

**Antinuclear antibodies**
Serological testing for connective tissue disorders, 190

**Aplastic anemia**
New challenges to developing animal models for human immune-mediated marrow failure, 63
Animal models for acquired bone marrow failure syndromes, 102

**Apoptosis**
Immunoregulation of dendritic cells, 166

**Appendicitis**
Charles Heber McBurney (1845-1913), 187

**Arthritis**
Diagnosis? 109

**Asthenia**
Auer rods galore! Diagnosis – Acute promyelocytic leukemia, 34

**Bacterial proteins/genetics**
Community-associated methicillin-resistant *Staphylococcus aureus* and its emerging virulence, 57

**Biofilm**
Quantitative analysis of multi-species oral biofilms by TaqMan real-time PCR, 176

**Biopsy**
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1
A case of Gorham’s disease with chylothorax treated curatively with radiation therapy, 83
Diagnosis? 109

**Blood pressure**
Self-management of blood pressure at home in the management of hypertension, 19
The clinical utility of patient-measured blood pressure at home in the management of hypertension, 134

**Blood pressure determination**
Self-management of blood pressure at home in the management of hypertension, 19
Blood pressure monitoring, ambulatory
Self-management of blood pressure at home in the management of hypertension, 19

Bone development
Lactoferrin – A novel bone growth factor, 93

Bone diseases
Gorham's disease or massive osteolysis, 65
A case of Gorham's disease with chylothorax treated curatively with radiation therapy, 83

Bone marrow cells
Auer rods galore! Diagnosis – Acute promyelocytic leukemia, 34

Bone marrow diseases
New challenges to developing animal models for human immune-mediated marrow failure, 63
Animal models for acquired bone marrow failure syndromes, 102

Bone marrow examination
Auer rods galore! Diagnosis – Acute promyelocytic leukemia, 34

Bone regeneration
Lactoferrin – A novel bone growth factor, 93

Bone remodeling
Lactoferrin – A novel bone growth factor, 93

Bone resorption
Gorham's disease or massive osteolysis, 65
A case of Gorham's disease with chylothorax treated curatively with radiation therapy, 83

Breeding
Surveillance of above- and below-ground mosquito breeding habitats in a rural midwestern community: baseline data for larvicidal control measures against West Nile virus vectors, 3

C
cadaver
Development of the allocation system for deceased donor liver transplantation, 87

Carcinoma in situ
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1

CD200
Immunoregulation of dendritic cells, 166

Central nervous system/pathology
Insight into multiple sclerosis, 41
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

Cervical intraepithelial neoplasia
Atypical Papanicolaou smear in pregnancy, 13

Cervix dysplasia
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1

Chyllothorax
A case of Gorham's disease with chylothorax treated curatively with radiation therapy, 83

Clinical trial
Radioimmunootherapy for Non-Hodgkin's lymphoma, 157

Colagen
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229
Relaxin: Antifibrotic properties and effects in models of disease, 241

Common bile duct stone
Charles Heber McBurney (1845-1913), 187

Community-acquired infections
Community-associated methicillin-resistant Staphylococcus aureus and its emerging virulence, 57

Computer-assisted instruction
Searching for evidence-based medicine in the literature. Part 2: Resources, 39
Searching for evidence-based medicine in the literature. Part 3: Assessment, 113

Connective tissue
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

Coronary bypass
Controversies in off-pump coronary artery surgery, 27

Coronary disease/surgery
Controversies in off-pump coronary artery surgery, 27

Cortical development
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

CTLA-4
Immunoregulation of dendritic cells, 166

Culex
Surveillance of above- and below-ground mosquito breeding habitats in a rural midwestern community: baseline data for larvicidal control measures against West Nile virus vectors, 3

CYP2C9
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137
Warfarin initiation and the potential role of genomic-guided dosing, 205

Cytochrome P450
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137

Decision support techniques
Development of the allocation system for deceased donor liver transplantation, 87
Demyelinating autoimmune diseases, CNS
Insight into multiple sclerosis, 41

Dendritic cells
Immunoregulation of dendritic cells, 166

Disease outbreaks
Community-associated methicillin-resistant Staphylococcus aureus and its emerging virulence, 57

Disseminated infection
Diagnosis – Disseminated toxoplasmosis, 186

Drug interactions
Impact of age, CYP2C9 genotype and concomitant medication on the rate of rise for prothrombin time during the first 30 days of warfarin therapy, 207

Drug resistance
Community-associated methicillin-resistant Staphylococcus aureus and its emerging virulence, 57

Echocardiography
Ejection fraction derived by noninvasive modalities versus left ventricular angiographic determination, 61
Accuracy of noninvasive ejection fraction measurement in a large community-based clinic, 75

Ehlers-Danlos syndrome
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

Environment
Surveillance of above- and below-ground mosquito breeding habitats in a rural midwestern community: baseline data for larvicidal control measures against West Nile virus vectors, 3

Essential osteolysis
Gorham’s disease or massive osteolysis, 65
A case of Gorham’s disease with chylothorax treated curatively with radiation therapy, 83

Evidence-based medicine
Searching for evidence-based medicine in the literature. Part 2: Resources, 39
Searching for evidence-based medicine in the literature. Part 3: Assessment, 113

Extraction nuclear antibodies
Serological testing for connective tissue disorders, 190

Factor IX
Tolerance induction by viral in vivo gene transfer, 243

Fibrosis
Relaxin: Antifibrotic properties and effects in models of disease, 241

Filamin A
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

fMRI
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Foot diseases
Common foot diseases, 116

Foot injuries
Common foot injuries, 116

Functional MRI
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Gallbladder disease
John Benjamin Murphy (1857-1916), 110

Gene therapy
Tolerance induction by viral in vivo gene transfer, 234

Gene-knockout mice
Relaxin: Antifibrotic properties and effects in models of disease, 241

Genetic screening
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137

Hallux valgus
Common foot disorders, 116

Health care quality, access, and evaluation
Searching for evidence-based medicine in the literature. Part 3: Assessment, 113

Heart function tests
Antonio Maria Valsalva (1666-1723), 35

Hematological malignancy
Radioimmunotherapy for Non-Hodgkin’s lymphoma, 157

Hemophilia
Tolerance induction by viral in vivo gene transfer, 234

Humans
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Hypertension
The clinical utility of patient-measured blood pressure at home in the management of hypertension, 134
Self-measurement of blood pressure at home in the management of hypertension, 19

IL-10
Immunoregulation of dendritic cells, 166
Immunoregulation
Immunoregulation of dendritic cells, 166

Immunotherapy
Lung cancer immunotherapy, 221

Influenza
Efficacy of the influenza vaccine in patients with malignant lymphoma, 214

Inherited disorders, CNS
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

Interferon type 1
Insight into multiple sclerosis, 41

Internet
Searching for evidence-based medicine in the literature. Part 2: Resources, 39
Searching for evidence-based medicine in the literature. Part 3: Assessment, 113

Lactoferrin
Lactoferrin – A novel bone growth factor, 93

LDL-receptor related protein 1
Lactoferrin – A novel bone growth factor, 93

Left ventricular dysfunction
Ejection fraction derived by noninvasive modalities versus left ventricular angiographic determination, 61
Accuracy of noninvasive ejection fraction measurement in a large community-based clinic, 75

Liver transplantation
Development of the allocation system for deceased donor liver transplantation, 87

Logistic modeling
Impact of age, CYP2C9 genotype and concomitant medication on the rate of rise for prothrombin time during the first 30 days of warfarin therapy, 207

Lymphoma
Efficacy of the influenza vaccine in patients with malignant lymphoma, 214

Methicillin resistance
Community-associated methicillin-resistant Staphylococcus aureus and its emerging virulence, 57

Monoclonal antibodies
Radioimmunotherapy for Non-Hodgkin’s lymphoma, 157

Morbidity
Controversies in off-pump coronary artery surgery, 27

Mortality
Controversies in off-pump coronary artery surgery, 27

Mosquito control
Surveillance of above- and below-ground mosquito breeding habitats in a rural midwestern community: baseline data for larvicidal control measures against West Nile virus vectors, 3

Motor
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Multiple sclerosis
Insight into multiple sclerosis, 41

Multiple sclerosis/diagnosis
Insight into multiple sclerosis, 41

Multivariate dosing models
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137
Warfarin initiation and the potential of genomic-guided dosing, 205

Murphy’s test
John Benjamin Murphy (1857-1916), 110

Muscle weakness
Diagnosis? 109

Muscles
Diagnosis? 109

Neuroma
Common foot disorders, 116

Non-Hodgkin’s lymphoma
Radioimmunotherapy for Non-Hodgkin’s lymphoma, 157

Non-small cell lung cancer
Lung cancer immunotherapy, 221

Oral bacteria
Quantitative analysis of multi-species oral biofilms by TaqMan real-time PCR, 176

Organ transplantation
Development of the allocation system for deceased donor liver transplantation, 87
P

Pain
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Pancytopenia
Auer rods galore! Diagnosis – Acute promyelocytic leukemia, 34

Panton-Valentine leukocidin
Community-associated methicillin-resistant Staphylococcus aureus and its emerging virulence, 57

Parasite
Diagnosis – Disseminated toxoplasmosis, 186

Periventricular heterotopia
Periventricular heterotopia: New insights into Ehlers-Danlos syndrome, 229

Pharmacogenetics
Warfarin initiation and the potential role of genomic-guided dosing, 205
Impact of age, CYP2C9 genotype and concomitant medication on the rate of rise for prothrombin time during the first 30 days of warfarin therapy, 207

Pharmacokinetics
Warfarin initiation and the potential role of genomic-guided dosing, 205
Impact of age, CYP2C9 genotype and concomitant medication on the rate of rise for prothrombin time during the first 30 days of warfarin therapy, 207

Plantar fasciitis
Common foot disorders, 116

Postoperative complications
Controversies in off-pump coronary artery surgery, 27

Postpartum period
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1

Precancerous conditions
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1
Atypical Papanicolaou smear in pregnancy, 13

Pregnancy
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1
Atypical Papanicolaou smear in pregnancy, 13

Prothrombin time
Warfarin initiation and the potential role of genomic-guided dosing, 205
Impact of age, CYP2C9 genotype and concomitant medication on the rate of rise for prothrombin time during the first 30 days of warfarin therapy, 207

Protozoan
Diagnosis – Disseminated toxoplasmosis, 186

Pseudotumor cerebri
Diagnosis? 109

Q-R

Quantification
Quantitative analysis of multi-species oral biofilms by TaqMan real-time PCR, 176

Radioimmunotherapy
Radioimmunotherapy for Non-Hodgkin’s lymphoma, 157

Radiotherapy
A case of Gorham’s disease with chylothorax treated curatively with radiation therapy, 83

Relaxin
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Registries
Development of the allocation system for deceased donor liver transplantation, 87

Relaxin
Relaxin: Antifibrotic properties and effects in models of disease, 241

Respiratory insufficiency
Diagnosis? 109

Rheumatoid factor
Serological testing for connective tissue disorders, 190

Risk factors
Controversies in off-pump coronary artery surgery, 27

Self care
Self-measurement of blood pressure at home in the management of hypertension, 19
The clinical utility of patient-measured blood pressure at home in the management of hypertension, 134

Sensory
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Single-photon emission-computed tomography
Ejection fraction derived by noninvasive modalities versus left ventricular angiographic determination, 61
Accuracy of noninvasive ejection fraction measurement in a large community-based clinic, 75

Small cell lung cancer
Lung cancer immunotherapy, 221

Sphincterotomy
Charles Heber McBurney (1845-1913), 187

Spinal cord
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146

Spinal cord injuries
Magnetic resonance imaging of neuronal function in the spinal cord: spinal fMRI, 146
Subject index: Squamous–X-ray

Squamous cell carcinoma
Atypical Papanicolaou smear in pregnancy, 13

Staphylococcal infections
Community-associated methicillin-resistant *Staphylococcus aureus* and its emerging virulence, 57

Staphylococcus aureus
Community-associated methicillin-resistant *Staphylococcus aureus* and its emerging virulence, 57

Superantigens
Community-associated methicillin-resistant *Staphylococcus aureus* and its emerging virulence, 57

Surgical technique
Charles Heber McBurney (1845-1913), 187

T

T cell
Tolerance induction by viral *in vivo* gene transfer, 234

TaqMan real-time PCR
Quantitative analysis of multi-species oral biofilms by TaqMan real-time PCR, 176

TGF-beta
Immunoregulation of dendritic cells, 166

Tissue and organ procurement/organization & administration
Development of the allocation system for deceased donor liver transplantation, 87

Titer
Efficacy of the influenza vaccine in patients with malignant lymphoma, 214

Tolerance
Immunoregulation of dendritic cells, 166
Tolerance induction by viral *in vivo* gene transfer, 234

*Toxoplasma gondii*
Diagnosis – Disseminated toxoplasmosis, 186

Transmission electron microscopy
Diagnosis? 109

Tumor immunology
Lung cancer immunotherapy, 221

Tumor vaccines
Lung cancer immunotherapy, 221

V

Vaccine
Efficacy of the influenza vaccine in patients with malignant lymphoma, 214

Vaginal smears
Atypical glandular cells in cervical smear during pregnancy and postpartum period, 1
Atypical Papanicolaou smear in pregnancy, 13

Valsalva maneuver
Antonio Maria Valsalva (1666-1723), 35

Vascular patency
Controversies in off-pump coronary artery surgery, 27

Virulence factors/genetics
Community-associated methicillin-resistant *Staphylococcus aureus* and its emerging virulence, 57

Warfarin
A prospective, randomized pilot trial of model-based warfarin dose initiation using CYP2C9 genotype and clinical data, 137
Warfarin initiation and the potential role of genomic-guided dosing, 205

West Nile virus
Surveillance of above- and below-ground mosquito breeding habitats in a rural midwestern community: baseline data for larvicidal control measures against West Nile virus vectors, 3
