A

ABO blood-group system
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Acinetobacter
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Actin cytoskeleton
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Alcohol
Gender, treatment and self-help in remission from alcohol use disorders, 163

Alcohol consumption
Do women change their drinking behaviors while trying to conceive? An opportunity for preconception counseling, 97

Alcoholics Anonymous
Gender, treatment and self-help in remission from alcohol use disorders, 163

ALK-1
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Allelic association
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Amoebicidal
Amoebicidal activity of milk, apo-lactoferrin, slgA and lysozyme, 106

Apo E
Genetic diagnosis and testing in clinical practice, 123

Apo-lactoferrin
Amoebicidal activity of milk, apo-lactoferrin, slgA and lysozyme, 106

Applanation tonometry
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Approximate entropy
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Aqueous humor
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Arginase
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Arginine
Growth hormone stimulation tests in the differential diagnosis of Parkinson's disease, 322

Arrhythmia
Dysregulation of cell adhesion proteins and cardiac arrhythmogenesis, 42

Asymptomatic hepatomegaly
Asymptomatic hepatomegaly with elevated serum transaminases – Diagnosis? 336

Atherosclerosis
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Atrial systole
Rene Theophile Hyacinthe Laennec (1781-1826) – The man behind the stethoscope, 230
Atypical parkinsonian disorders
Differential diagnosis of Parkinson’s disease: A new blood test? 246

Bacillus Calmette-Guérin
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Barrett’s esophagus
Esophageal adenocarcinoma arising from Barrett’s dysplasia: A case report of double occurrence and prolonged survival after chemotherapy, 184

Behçet’s disease
Skewed Th1 responses caused by excessive expression of Txk, a member of Tec family tyrosine kinases, in patients with Behçet’s disease, 147
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

BH4
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Black death
Dissecting plague, 161

Bleomycin
An armamentarium of wart treatments, 273

Blood transfusion
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Body mass index
Assessment of female participation in an employee 20-week walking incentive program at Marshfield Clinic, a large multispecialty group practice, 256

BRCA
Genetic diagnosis and testing in clinical practice, 123

Burns
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Cadherin
Dysregulation of cell adhesion proteins and cardiac arrhythmogenesis, 42

Caffeine
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

CAMP strains
Imbalanced distribution of Plasmodium falciparum EBA-175 genotypes related to clinical status in children from Bakoumba, Gabon, 7

Cancer gene therapy
Gene therapy for cancer treatment: Past, present and future, 218

Cantharidin
An armamentarium of wart treatments, 273

Cardiac enzymes
Cardiac enzymes, renal failure and renal transplantation, 79

Cardiac neoplasms
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22

Cardiac troponins
Cardiac enzymes, renal failure and renal transplantation, 79

Carpal tunnel syndrome
Jules Tinel (1879-1952) and Paul Hoffmann (1884-1962), 85

CD4
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Celiac disease
The prevalence of growth hormone deficiency and celiac disease in short children, 180

Cell cycle
The emerging role of pituitary tumor transforming gene in tumorigenesis, 130

Cerebral infarction
The Siblings With Ischemic Stroke Study (SWISS): A progress report, 12

CFP-10
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Chaos
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Charcot-Marie-Tooth
Genetic diagnosis and testing in clinical practice, 123

Chemokines
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Clinical Malaria
Analysis of human antibodies to erythrocyte binding antigen 175 peptide 4 of Plasmodium falciparum, 1

Clonidine
Growth hormone stimulation tests in the differential diagnosis of Parkinson’s disease, 322

Coffee
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Colistin
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138
Computed tomography
Asymptomatic hepatomegaly with elevated serum transaminases – Diagnosis? 336

Computerized axial tomography
Gastrointestinal stromal tumor with Dieulafoy lesion: A novel association, 228

Connexin
Dysregulation of cell adhesion proteins and cardiac arrhythmogenesis, 42

Coronary calcification
Lipid-rich plaque masquerading as a coronary thrombus, 119

Cost-effectiveness
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Cryotherapy
An armamentarium of wart treatments, 273

Cytokines
Skewed Th1 responses caused by excessive expression of Tlxk, a member of Tec family tyrosine kinases, in patients with Behçet's disease, 147
Cytokines in uveitis, 248
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

D

Deep brain stimulation
Differential diagnosis of Parkinson's disease: A new blood test? 246

Degenerative health outcomes
Determinants of early life leptin levels and later life degenerative outcomes, 326

Detrended fluctuation analysis
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Diagnostic imaging
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22

Dienga, Gabon
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175

Dieulafoy lesion
Gastrointestinal stromal tumor with Dieulafoy lesion: A novel association, 228

Differential diagnosis
Differential diagnosis of Parkinson's disease: A new blood test? 246

Diphencyprone
An armamentarium of wart treatments, 273

DNA
Genetic diagnosis and testing in clinical practice, 123

Dyspepsia
Managing dyspepsia in a primary care setting, 337

Dysplasia
Esophageal adenocarcinoma arising from Barrett's dysplasia: A case report of double occurrence and prolonged survival after chemotherapy, 184

E

Early life
Determinants of early life leptin levels and later life degenerative outcomes, 326

EBA-175 peptide 4
Analysis of human antibodies to erythrocyte binding antigen 175 peptide 4 of Plasmodium falciparum, 1

Echocardiography
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22

Elevated serum transaminases
Asymptomatic hepatomegaly with elevated serum transaminases – Diagnosis? 336

ELISPOT
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Endemic area
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175

Endoglin
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Endoscopy
Managing dyspepsia in a primary care setting, 337

Endothelial cells
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

eNOS
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Entamoeba histolytica
amoebicidal activity of milk, apo-lactoferrin, sIgA and lysozyme, 106

Entrainment neuropathy
Jules Tinel (1879-1952) and Paul Hoffmann (1884-1962), 85

Erythrocyte binding antigen 175 kDa
Imbalanced distribution of Plasmodium falciparum EBA-175 genotypes related to clinical status in children from Bakoumba, Gabon, 7

ESAT-6
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266
Esophageal adenocarcinoma
Esophageal adenocarcinoma arising from Barrett’s dysplasia: A case report of double occurrence and prolonged survival after chemotherapy, 184

Esophagogastroduodenoscopy
Gastrointestinal stromal tumor with Dieulafoy lesion: A novel association, 228

Eye diseases
Cytokines in uveitis, 248

Factor V Leiden
Genetic diagnosis and testing in clinical practice, 123

FCR-3 strains
Imbalanced distribution of Plasmodium falciparum EBA-175 genotypes related to clinical status in children from Bakoumba, Gabon, 7

Female
Assessment of female participation in an employee 20-week walking incentive program at Marshfield Clinic, a large multispecialty group practice, 266

Fetal outcomes
Lupus and pregnancy: Complex yet manageable, 310

Fractal
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Fuch’s heterochromic cyclitis
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Gap junctions
Dysregulation of cell adhesion proteins and cardiac arrhythmogenesis, 42

Gastroesophageal reflux disease
Esophageal adenocarcinoma arising from Barrett’s dysplasia: A case report of double occurrence and prolonged survival after chemotherapy, 184

Gastrointestinal stromal tumor
Gastrointestinal stromal tumor with Dieulafoy lesion: A novel association, 228

Gender
Gender, treatment and self-help in remission from alcohol use disorders, 163

Gene transfer
Gene therapy for cancer treatment: Past, present and future, 218

Genetic testing
Genetic diagnosis and testing in clinical practice, 123

Genomic comparison
Current trends in plague research: From genomics to virulence, 189

Genomics
Dissecting plague, 161

Growth hormone
Growth hormone stimulation tests in the differential diagnosis of Parkinson’s disease, 322

Growth hormone deficiency
The prevalence of growth hormone deficiency and celiac disease in short children, 180

Growth hormone test
Differential diagnosis of Parkinson’s disease: A new blood test? 246

Head and neck
Postoperative radiotherapy for squamous cell carcinoma of the head and neck, 200

Help-seeking
Gender, treatment and self-help in remission from alcohol use disorders, 163

Hereditary hemochromatosis
Genetic diagnosis and testing in clinical practice, 123

Hereditary hemorrhagic telangiectasia
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Hoffmann-Tinel sign
Jules Tinel (1879-1952) and Paul Hoffmann (1884-1962), 85

Household contacts
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Human papilloma virus
An armamentarium of wart treatments, 273

Huntington’s disease
Genetic diagnosis and testing in clinical practice, 123

IFN-γ
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

IL-6
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Imaging
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22
Imiquimod
An armamentarium of wart treatments, 273

Immune response
Analysis of human antibodies to erythrocyte binding antigen 175 peptide 4 of Plasmodium falciparum, 1

Immunotherapy
Gene therapy for cancer treatment: Past, present and future, 218

Infectious disease
Dissecting plague, 161

Inflammatory response
Cytokines in uveitis, 248

Inhalation
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Intensive care unit
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Intercalated disc
Dysregulation of cell adhesion proteins and cardiac arrhythmogenesis, 42

Intravascular ultrasound
Lipid-rich plaque masquerading as a coronary thrombus, 119

Ischemic stroke
The Siblings With Ischemic Stroke Study (SWISS): A progress report, 12

K

Klebsiella
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

L

Laënnec's Cirrhosis
Rene Theophile Hyacinthe Laënnec (1781-1826) – The man behind the stethoscope, 230

L-arginine
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Laser
An armamentarium of wart treatments, 273

Later life
Determinants of early life leptin levels and later life degenerative outcomes, 326

Leptin
Determinants of early life leptin levels and later life degenerative outcomes, 326

Lipid plaques and filling defects
Lipid-rich plaque masquerading as a coronary thrombus, 119

Liver resection
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Lupus
Lupus and pregnancy: Complex yet manageable, 310

Lysozyme
Amoebicidal activity of milk, apo-lactoferrin, slgA and lysozyme, 106

M

Macrocystosis
Megaloblastic anemia and other causes of macrocytosis, 236

Magnetic resonance
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22

Malaria
Interactions between natural killer cells, cortisol and prolactin in malaria during pregnancy, 33

Management
Managing dyspepsia in a primary care setting, 337

Marfan syndrome
Genetic diagnosis and testing in clinical practice, 123

Maternal outcomes
Lupus and pregnancy: Complex yet manageable, 310

Mediate auscultation
Rene Theophile Hyacinthe Laënnec (1781-1826) – The man behind the stethoscope, 230

Megaloblastic
Megaloblastic anemia and other causes of macrocytosis, 236

Malignoma
Rene Theophile Hyacinthe Laënnec (1781-1826) – The man behind the stethoscope, 230

Milk
Amoebicidal activity of milk, apo-lactoferrin, slgA and lysozyme, 106

Multidrug-resistant Gram-negative bacteria
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Multiple system atrophy
Growth hormone stimulation tests in the differential diagnosis of Parkinson's disease, 322

Multiplex
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

N

Natural killer cells
Interactions between natural killer cells, cortisol and prolactin in malaria during pregnancy, 33
Subject Index: Nebulization - Public

Nebulization
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Nonlinear dynamics
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Nonulcerative dyspepsia
Managing dyspepsia in a primary care setting, 337

Oncolytic virotherapy
Gene therapy for cancer treatment: Past, present and future, 218

Open-heart surgery
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Outcome
Gender, treatment and self-help in remission from alcohol use disorders, 163

Oxidative stress
Recent advances in understanding endothelial dysfunction in atherosclerosis, 53

Parkinson's disease
Differential diagnosis of Parkinson's disease: A new blood test? 246
Growth hormone stimulation tests in the differential diagnosis of Parkinson's disease, 322

Pathogen reduction
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

PCR
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175

Pedigree research
The Siblings With Ischemic Stroke Study (SWISS): A progress report, 12

Percutaneous coronary intervention
Lipid-rich plaque masquerading as a coronary thrombus, 119

Physical activity
Assessment of female participation in an employee 20-week walking incentive program at Marshfield Clinic, a large multispecialty group practice, 256

Pituitary adenoma
The emerging role of pituitary tumor transforming gene in tumorigenesis, 130

Plague
Dissecting plague, 161

Plasmodium falciparum
Analysis of human antibodies to erythrocyte binding antigen 175 peptide 4 of Plasmodium falciparum, 1
Imbalanced distribution of Plasmodium falciparum EBA-175 genotypes related to clinical status in children from Bakoumba, Gabon, 7
Interactions between natural killer cells, cortisol and prolactin in malaria during pregnancy, 33

Pneumonia
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Polymorphism
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Polymyxin B
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

PPD
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Preconception counseling
Do women change their drinking behaviors while trying to conceive? An opportunity for preconception counseling, 97

Predictive testing
Genetic diagnosis and testing in clinical practice, 123

Pregnancy
Interactions between natural killer cells, cortisol and prolactin in malaria during pregnancy, 33
Do women change their drinking behaviors while trying to conceive? An opportunity for preconception counseling, 97
Lupus and pregnancy: Complex yet manageable, 310

Pressure waveform
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114

Prevalence
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175
The prevalence of growth hormone deficiency and celiac disease in short children, 180

Proband
The Siblings With Ischemic Stroke Study (SWISS): A progress report, 12

Pseudomonas
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Public health
Dissecting plague, 161
R

Radiotherapy
Postoperative radiotherapy for squamous cell carcinoma of the head and neck, 200

Recruitment
The Siblings With Ischemic Stroke Study (SWISS): A progress report, 12

Renal failure
Cardiac enzymes, renal failure and renal transplantation, 79

Renal transplantation
Cardiac enzymes, renal failure and renal transplantation, 79

S

Sarcoidosis
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Sepsis
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Short children
The prevalence of growth hormone deficiency and celiac disease in short children, 180

slgA
Amoebicidal activity of milk, apo-lactoferrin, slgA and lysozyme, 106

SNP
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Squamous cell carcinoma
Postoperative radiotherapy for squamous cell carcinoma of the head and neck, 200

Submicroscopic Plasmodium falciparum
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175

Sulfadoxine-pyrimethamine-artesunate
Submicroscopic Plasmodium falciparum infections before and after sulfadoxine-pyrimethamine and artesunate association treatment in Dienga, Southeastern Gabon, 175

SWISS
The Siblings with Ischemic Stroke Study (SWISS): A progress report, 12

Systemic lupus erythematosus
Lupus and pregnancy: Complex yet manageable, 310

T

TGF-β pathway
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Th1 cell
Skewed Th1 responses caused by excessive expression of Txk, a member of Tec family tyrosine kinases, in patients with Behçet’s disease, 147

Tibial nerve decompression
Jules Tinel (1879-1952) and Paul Hoffmann (1884-1962), 85

Tinel’s sign
Jules Tinel (1879-1952) and Paul Hoffmann (1884-1962), 85

TLR4
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

TNF-α
Innate immunity SNPs are associated with risk for severe sepsis after burn injury, 250

Tomography
The role of echocardiography in diagnosing space-occupying lesions of the heart, 22

Treatment
Gender, treatment and self-help in remission from alcohol use disorders, 163

Tuberculin skin test
Comparison of an in-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Tuberculosis
Rene Theophile Hyacinthe Laennec (1781-1826) – The man behind the stethoscope, 230

Comparison of an In-house and a commercial RD1-based ELISPOT-IFN-γ assay for the diagnosis of Mycobacterium tuberculosis infection, 266

Txk
Skewed Th1 responses caused by excessive expression of Txk, a member of Tec family tyrosine kinases, in patients with Behçet’s disease, 147

Universal ABO-independent plasma
Universal pathogen-reduced plasma in elective open-heart surgery and liver resection, 209

Uveitis
Cytokines in uveitis, 248

Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Vaccine
An armamentarium of wart treatments, 273

Variability
Nonlinear dynamics of blood pressure variability after caffeine consumption, 114
Vascular dysplasia
Hereditary hemorrhagic telangiectasia, a vascular dysplasia affecting the TGF-β signaling pathway, 66

Ventilator-associated
The use of intravenous and aerosolized polymyxins for the treatment of infections in critically ill patients: A review of the recent literature, 138

Ventricular systole
Rene Theophile Hyacinthe Laennec (1781-1826) – The man behind the stethoscope, 230

Virucidal
An armamentarium of wart treatments, 273

Virulence
Dissecting plague, 161
Current trends in plague research: From genomics to virulence, 189

Vogt-Koyanagi-Harada disease
Cytokines and chemokines in uveitis – Is there a correlation with clinical phenotype? 294

Walking
Assessment of female participation in an employee 20-week walking incentive program at Marshfield Clinic, a large multispecialty group practice, 256

Wart
An armamentarium of wart treatments, 273

Y

Yersinia pestis
Dissecting plague, 161

Yersinia spp.
Current trends in plague research: From genomics to virulence, 189
